

Fact sheet

Company name: Singletouch

Web site: www.singletouch.com

U.S. Headquarters: Phoenix, Arizona

Canadian headquarters: Calgary, Alberta, Canada

Founded: 1997

Company overview: Singletouch has developed a comprehensive data-capture platform for electrical contractors working in industrial construction that enables real-time input of information in the field – one time, easily and accurately – thus eliminating the paperwork headaches that have plagued the industry. Details collected in the field are instantly accessible at head office and seamlessly integrated into backend systems, expediting payroll, accounting and project reporting.

The software is available for the office as Singletouch Office, or on the jobsite with Singletouch Jobsite and Singletouch Mobile.

Executive team

Marty Hilsenteger, founder and CEO

Scott Sheppard, president

Customers

Singletouch offers scalable solutions for electrical contractors in industrial construction. Charged on a per-seat basis, customers range from small deployments that support up to five office users and fewer than 100 field workers, to large-scale deployments that support significant office and field requirements.
